

Indiana's law on phone privacy has been most effective! "I used to receive many calls per week, now I only receive very few." Those that do call are unidentified callers or out-of-state callers by my caller ID. It has been the most wonderful blessing. Indiana's Telephone Privacy law has absolutely improved the quality of our family life! It has also given us back our privacy and peace of mind when answering the phone.

Please, please, please, do NOT implement ANY proposal that would lessen Indiana's Telephone Privacy law protections.

Thank you. Rod and Terri Masters
